

Excite Visual Systems™

ExciteProfessional System Order Form

- The ExciteProfessional system displays the unique story about your practice to all clients in the reception area. It is a unique high-tech digital display system of your personalized practice messages dynamically presented through an Internet connection to a large plasma wide-screen monitor in reception areas. This exclusive system allows you to educate clients and tell your story in an interesting and compelling manner. Personalized means the story is about you and your practice, not generic or about someone else.
- Uniquely personalized to your practice and consumer oriented, these visual professional practice messages fulfill clients' needs for more information, leading to greater client impact that no outdated CDs, DVDs, tapes or broadcast television can match. No other medium has as much power to capture 100% of clients.
- The personalized visual messages include: testimonials to the quality of your work, information about your practice, staff, and the various services you provide, client stories...and more. With this system we can also integrate your website, brochures, yellow pages, customer testimonials, on-hold messaging, and any other messages you want your clients and staff to know.
- Industry experts recommend investing a minimum of 4-6% (up to 5%-10%) of the practice gross revenue on marketing. Internal client communication is proven to be 6 times less expensive and yet dollar for dollar more effective. On a million dollar practice, the ExciteProfessional system costs about 0.3% – affordable and yet delivers high impact to all clients.
- The ExciteProfessional system is completely turn-key – no extra staff, freelancers or consultants are necessary. You supply the electricity and the Internet connection – we do the rest. Once installed, limited to no staff interaction is required.

Personalized Visual Message Segments:

- ExciteProfessional creates a digital library of practice-specific personalized visual messages for you. These personalized messages include information about your practice (requires no sound). See the attached Personalized Message Segments form for the selection.
- Clients may not always be viewing your website. To alleviate this problem, as an option we can display information from your website and place it on the reception room screen, and conversely, the Personalized Messages playing in the reception area can be added to your website.
- Personalized Message Segments vary in length, but average from 20 to 45 seconds each, and we recommend between 4 to 9 minutes of total messages. Proven marketing standards suggest delivering the message within this timeframe to capture the greatest impact. The key importance is to capture the attention of your clients and provide the visual messages in memorable short segments.

System Management

- Requires no staff or user intervention. The annual System Management Fee includes the daily management and electronic delivery of the Personalized Message Segments to your screen in the reception area through an Internet connection. Also included is 24/7 monitoring, eliminating your need to procure hardware, software, and designer skills to operate the system – this saves you time and money as we amortize costs over many clients.
- After installation, if an onsite visit is required there may be per incident technical support fees that apply.

System Hardware & Software

- The ExciteProfessional system includes a 42" standard definition plasma monitor, table top, or wall mounted. As an option, additional commercial grade plasma and LCD flat-screen monitors are available upon request.
- Monitors powered by direct connection to commercial grade high performance digital PC players with proprietary integrated software, and connect to the Internet via a wireless configuration (if applicable). This software enables turn-key operation allowing you to focus on your practice and clients.
- Hardware and software system is entirely scalable for adding more flat panel monitors, digital PC players, and software without needing to replace equipment.

Warranty, Software Upgrades

- System software includes upgrades therefore minimizing outmoded technology surprises. These upgrade costs are included in the annually renewable System Management Fee.
- Monitor screens and the digital PC player have OEM manufacturer-backed 1 year warranties. As an option, extended warranties may be purchased.

Pricing: System Hardware, Software & Installation

Excite Visual Systems™

Installation Requirements

- The requirements we'll need provided to install our system are: 1) electrical power near the monitor location (this may need to be installed by an electrician), 2) an Internet connection (preferably high speed like DSL or cable), and 3) mounting location for the digital display screen and player.
- One-time access through any internet firewalls to set up our remote managing system software.
- Installation will be scheduled within 15 – 25 days, at a time convenient to your practice.

Summary

- This professional system emphasizes to your clients the level of expertise they can expect, and that you have the latest technologies and are offering the best in professional services.
- Your staff won't have to extend additional effort, and you'll save time, aggravation, and money by having our experts work with you.
- Calculated hourly on a normal work-week basis, the total cost to purchase, have us create Personalized Visual Messages, send through the Internet, and manage the system averages the price of a cup of coffee. This is very affordable yet has high impact to your clients.
- Presently, most clients are unaware of all the services a firm may offer, like a restaurant without a menu. This system is the menu for clients to learn what is available.
- Our ExciteProfessional system displays your services and educates your clients in the appropriate consumer-oriented approach, and with current high technology of the Internet and personalized visual messages.
- Thank you for the opportunity to provide this proposal, and we look forward to a long-term relationship.
